Dear Hiring Manager,

I'm confident that my love of knowledge and over 8 years of professional experience and diversified capabilities in IT and Project Management make me an ideal candidate.

During my time working as a Web Developer and Project Manager at Bossomnia, I was the Project Manager leading a large-sized development team. I was charged with the responsibility of helping oversee a range of critical projects from conception to delivery. Moreover, while my previous position afforded me a well-rounded skill set, including excellent risk management and time management skills, I excel at:

- Experience outlining project scopes, managing timelines, and deadlines.
- Practical knowledge of tracking and reporting on overall progress.
- Effective communication skills, both oral and written
- Excellent organization and multitasking skills
- A proven track record of compassionate, effective care
- Managing daily operations and implementation of new software.
- Forecasting future revenue and ensuring all goals are met.

Again, I am excited to have the opportunity to apply for this position and I am confident that I have the communications, stakeholder management, strategic planning, technical and problem-resolution skills needed.

I appreciate your time and consideration, and please do not hesitate to contact me via phone or email to discuss this opportunity in greater detail at your earliest convenience. Please enjoy the rest of your day.

Sincerely,

Bama Magassa
