WORK EXPERIENCE

Project Manager

Bossomnia, Philadelphia, PA | 2019 – 2024

Responsibilities

- **(Project) RE/MAX Direct:** Developed using Brivity, preferred CMS by the stakeholders. Customized with HTML5, CSS3, and JavaScript explicitly for the purpose of a lightweight responsive website increasing user conversion and retention by 22%.
- **(Project) AFAHO:** Developed using WordPress, HTML5, CSS3, and JavaScript and set up database queries in PHP and SQL. Testing and debugging end-product assuring connections between the pages were fluid, secure, responsive and cross-compatible using Chrome, Edge, Safari and Firefox DevTools.
- Implemented performance tuning techniques using Chrome, Safari and Firefox DevTools, secured request queries to the server, and optimized multi-platform website responsiveness.
- Collaborated with UX/UI designers and developers to improve the website application performance and responsiveness on multiple platforms, increasing conversion and page-speed rates by 30%.
- Supervised, produced, and improved a cross-browser/platform custom website matching design specs and requirements for complex page layouts.

Result

- Improved security, pagespeed, responsiveness, user-interface and cross-browser compatibility, increasing user retention and conversion by a minimum of 22% along with optimizing website navigation.

- MS Excel
- Google Docs
- Google Sheets
- Premiere Pro
- Photoshop
- Adobe XD
- WordPress
- HTML5 / CSS3
- JavaScript
- Time Management & Organized

EDUCATION

Bachelor of Science in Computer Science, Minor in Mathematics

University of Bridgeport, Bridgeport, CT | 2013 - 2017

DEEP THOUGHTS

- ★ I have a passion to understand how and why the universe was created.
- ★ I have a passion to understand why everything was, is, and will be the way it is and embrace its beauty until my end.
- ★ I have a passion to understand the why behind every action that is taken in life.
